Office of the SECRETARY OF STATE, }
CHEYENNE, WYOMING, October 1st, 1896. }

To HIS EXCELLENCY

GOVERNOR WILLIAM A. RICHARDS.

SIR:—

89496
My Public Lib
I have the honor to transmit herewith a report of the business transactions of this Department for the two years ending September 30, 1896, and also a statement of subsequent transactions to date. The report as presented will be found to contain certain information in the nature of election statistics not heretofore incorporated in the report of any state officer, and is now given to meet the constant demand on this office for reliable information concerning the vote of the State in detail, as polled at the last preceding election. There will also be found a roster of state and county officers, and in the appendix, to be prepared after the convening of the Legislature, there will be a roster of legislative officers and appointees. In many respects the report of this office is composed of such information as experience has demonstrated is most commonly sought by non-resident inquirers and prospective citizens, and such as is not found in the reports of other state officials; as, for instance, a list of notaries public, of commissioners of deeds, an index of corporations, a list of requisitions and pardons issued by the Governor, etc. The object sought has been a compilation of such information as will prove of interest to the general public and of value to the State.

DISTRIBUTION OF REPORTS.

During the past two years a large number of state reports and descriptive pamphlets have been distributed from this office, in many instances in compliance with requests by mail, and in other cases to such points and through such channels as it seemed would prove of benefit to the State. Many of

the requests received designate the character of report desired and apparently are made by persons anticipating immigration to this State, and ordinarily are for a publication giving a comprehensive idea of the various resources and advantages of the State. Such requests were formerly complied with by sending a pamphlet prepared under the authority of Chapter 34, Session Laws of 1888, entitled "Wyoming's Resources." This work was well calculated to answer the purpose for which prepared, but is now exhausted, and demands formerly met by it are now filled by sending reports of the different state officers, according to the nature of each request. The frequent necessity, however, of filling each request by sending several different reports naturally increases the expense of transmission, and could be avoided by a compilation, under authority, of a work similar to the one entitled "Wyoming's Resources," and in which could be brought together in comprehensive and attractive form all of the most desirable features included in the several reports now issued by the different departments. I therefore recommend such legislative action as will enable this Department to carry out the provisions of the statute cited. Without discrediting the reports of any state officer or department, I desire to say that the bulletins issued by the State University, treating of coal mining and agricultural industries, and the report of the State Engineer, have been found to contain more general information of the character sought by prospective settlers than other reports placed at my disposal. At the same time, the several reports of the different departments are each of value in furnishing information relative to the special subject treated, and in scope and preparation compare favorably with those received by this office from other states.

STATE MAPS.

Many requests are also received at this office for state maps, the supply of which, purchased by authority of the First State Legislature, is now exhausted and should be renewed. The original stones from which these maps were printed for the Federal Government are now in the possession of Messrs. Julius Bien & Company, lithographers, who offer to furnish five thousand for the sum of five hundred

dollars, and as the map is in every respect accurate and by far the best ever prepared for the State, I recommend an appropriation of five hundred dollars for the purpose of purchasing a new supply. A map of this character should be in every school house in the State, and it is my purpose, if this recommendation is followed, to see that each school is supplied with a copy.

CORPORATION FEES.

The fees received by this office for the two years ending September 30, 1896, from corporations organized under the state laws, amounted to \$569.50, and from foreign corporations, including Acceptance of Constitution, \$104.95, making a total of \$674.45. For this small sum the State has granted valuable franchises to one hundred and eighty-five companies organized for profit and having a combined authorized capital of \$235,329,000.00.

The amount received by the State is altogether inadequate and out of proportion, and the fees of the office should be increased to an amount in some degree proportionate to the value of the rights acquired, and in some degree corresponding with fees charged in adjacent States. In the report of my predecessor, the Hon. Amos W. Barber, a recommendation was made that fees of this character be increased, and in compliance with that recommendation, a bill was introduced into the Third State Legislature providing for fees corresponding to those of the State of Colorado, but the bill did not become a law. I now renew the recommendation referred to, and urge the advisability of the passage of an act that will tend to increase the revenues of the State from this source. In support of this recommendation I desire to say that the filing and recording fees of this office under the provisions of such a law as exists in the State of Colorado would have resulted in an income to the State during the two years ending September 30, 1896, of \$25,111.50. It is doubtless true that many of the articles of incorporation filed in this State during the past two years were filed because of the fact that fees charged here were much less than in adjacent States, but it is equally true that with authority to charge higher fees the income of this office would have been

materially increased. I recommend that all corporations, both domestic and foreign, whose capital does not exceed \$100,000, and which are organized for profit, be charged a fixed fee of \$25.00; that domestic corporations organized for profit be charged an additional fee of five cents per thousand for each thousand of capital stock over \$100,000, and that all corporations not organized for profit, but organized for charitable purposes, be charged a fixed fee of \$2.50. The fees authorized in the State of Colorado heretofore mentioned are as follows:

For filing and recording certificate of incorporation		
whose capital stock does not exceed \$100,000,	\$10.00	
For each additional thousand of capital stock,	-	.10
Incorporations not for profit,	-	- 2.50

Neither the fees recommended nor those of the State of Colorado are higher than the value of the right acquired warrants, and any company organized for a legitimate purpose can afford to pay them.

NOTARIES' COMMISSIONS.

During the two years ending September 30, 1896, this Department issued one hundred and ninety-six (196) commissions to notaries public, for which fees have been received amounting to \$588.00. The greater number of these commissions were issued under the provisions of an act of the Legislature of 1895, wherein the term of office of a notary was extended from two to four years, but no corresponding increase in the fee was made, and the fee charged, to-wit: three dollars, is the same as was formerly charged when the term of a notary was but two years. I recommend that the fee be increased from three to five dollars, as by so doing the revenue to the State from this source could be materially increased.

PUBLIC PRINTING.

Under the provisions of Chapter 48, Laws of 1890-91, I caused an advertisement to be published calling for bids for all printing necessary for the purposes of the Fourth State Legislature, and for such printing as might be authorized by that body. As a result of the bids received, the following

contracts have been awarded: To E. A. Slack, contract for printing all bills, resolutions and committee reports in bill form, and also for the Journals of the House and Senate of the Fourth Legislature; to the S. A. Bristol Company, all official reports, exclusive of those above mentioned, which may be ordered by the Fourth Legislature; to George W. Hoyt, all supplies in the nature of stationery, etc., to be required by the Fourth State Legislature; to Frances R. Brown, typewriter and supplies. Under the same advertisement bids were also received for the printing of the revision of the laws of Wyoming. Upon examining these latter bids it was found impossible to determine who was the lowest bidder, for the reason that there was no way of ascertaining the exact amount of copy composing the revision as now filed in this office, and which is subject to amendment and change by the Fourth Legislature at its next session. Therefore, in view of the fact also that the printing of the revision has not yet been authorized, no award of a contract for printing the work has been made, and the bids received will be held subject to legislative action and discretion.

In compliance with the provisions of Chapter 29, Session Laws of 1895, the Revision Commission filed in this office, on the first day of September, 1896, three copies of the work prepared by them, and upon the convening of the Fourth Legislature, one of these copies will be submitted to either branch of that body, while the third will be retained in this office. From the bids received, the printing committees of the House and Senate will be able to determine with a fair degree of exactness the probable cost of completing the work, which will be about \$2.50 per volume.

Under the authority of Chapter 48, Laws of 1890-91, after state and county officers are each supplied with a copy, the Revised Laws then remaining can be sold from this office at an advance of twenty-five per cent. over the cost, which will in a measure reimburse the State for the expense incurred in the preparation. There is also frequent demand for pamphlets containing the corporation, mining and land laws of the State, and I recommend that the appropriation for printing the revision of the laws include also a small appropriation for the purpose of printing in separate pamphlets the laws relat-

ing to the several subjects named. If this work is prepared at the time when the subject matter of the revision is in type, it can be done at comparatively slight expense, and the pamphlets so prepared can subsequently be sold at such a price as will realize a reasonable profit to the State.

All of which is respectfully submitted,

CHARLES W. BURDICK,

Secretary of State.

PUBLIC PRINTING AND INCIDENTAL EXPENSE

—OF THE—

THIRD STATE LEGISLATURE.

In accordance with the provisions of law my predecessor, Hon. Amos W. Barber, advertised for bids for furnishing supplies and printing session laws and doing other public printing, and made contracts therefor.

The contract for printing and binding the session laws of the Third State Legislature was awarded to E. A. Slack of Cheyenne. As a revision of the laws of Wyoming was authorized by the Third Legislature, the contract with Mr. Slack was amended and but 1,000 copies of the session laws of 1895 were printed instead of the 2,000 copies advertised for. The laws were carefully copied for the use of the printer and the printed proofs compared with the original enrolled acts, and again proof-read after being corrected.

The appropriation made and amount expended are as follows:

Appropriation	-	-	-	-	-	\$2,000.00
Furnishing 1,000 copies and extra sheets	-	-	-	-	-	895.94
<i>Unexpended Balance</i>						\$1,104.06

Until statehood the vote for Delegate in Congress was the only vote cast over the entire Territory. After statehood the vote for Electors is taken and for Governor in other years.

* Only Republican ticket in field.

INDEX TO CORPORATIONS,
STATE OF WYOMING.

INDEX TO CORPORATIONS.

All corporations organized under the laws of the Territory of Wyoming, or of any other state or government, must file an Acceptance of the Constitution before being permitted to transact business in this State, hence all companies that filed articles of incorporation previous to the 10th day of July, 1890, must execute and file an Acceptance of the Constitution, as must also any company organized under the laws of any other state, territory or government.

In the following Index of Corporations, which includes all instruments filed since the organization of the Territory of Wyoming to September 30th, 1896, companies that have complied with this requirement are indicated by a star (*) placed before the corporate name, and the especial attention of those interested is called to the fact that all corporations included in filing numbers 1 to 907 inclusive should at once take similar action.

Persons desiring to organize corporations can see by referring to this Index whether the name they desire to use has already been taken by a prior organization and thus avoid conflict and delay.
